

Note added by Michigan Plate Readers. Our message of October 14, 2026, 10:55 am, on the system exports request's thread (FFP-2026-10-04-B), to the Chief of Police, the Village Administrator, the Village Clerk and the Department's records mailbox. Text as sent; the quoted thread is published separately. End of note.

Hi all,

Thank you for the quick responses this morning. I'll resubmit both requests as new email threads to this group; please disregard the one on this thread. I've changed the request language since the version I sent on October 4th (among other things, I now ask that license plate columns be removed, which should reduce any review/redaction work), so I'm happy to send the new version.

Please be advised there are two separate requests, both for ALPR related records, which may look similar at first glance. One covers contracts and documents, the other covers audit exports from the Flock system itself. Please let me know if anything's unclear in the requests - I'd be happy to discuss in person at the station or over the phone.

Also - just so you're aware, the requests, responses and our correspondence about them will be published at michiganplatereaders.org with personal contact details omitted.

Thanks in advance,
Chance
