

Note added by Michigan Plate Readers. Our reply to the Roseville Police Department's Records Bureau, copying the City Clerk, October 21, 2026, 1:37 pm, on the Bureau's deposit email of 1:05 pm for the documents request. Our own text as sent; the quoted thread is left out (the Bureau's email and our request are published separately). End of note.

Thank you for the response. I would like to continue with the request but have some questions first. Does this deposit cover both of my requests, or just this one (for documents)? If just this one, should I expect a separate estimate for the other request?

Could you also send the fee itemization, with the estimated total the deposit is based on? It should show the hours by type of work (searching, examining, redaction, duplication, etc.) and, if possible, by the numbered items in my request, so I can narrow it if that would help. Each task should be billed at the rate of the lowest-paid employee capable of performing it, regardless of who actually performs it. If the estimate includes charges for searching, examining or redaction, please also identify the nature of the unreasonably high costs that make those charges necessary.

I'd also appreciate an official decision on the public-interest fee waiver I requested.

Thanks,
