

Note added by Michigan Plate Readers. The Troy Police Department Records Section's answer to each item of request 26-999 (system exports): a Word document released on the City's NextRequest portal on October 7, 2026, 3:01 pm (file name "FOIA 999 cover letter.docx"). Text of the document as released, rendered to PDF; the Department's letterhead (an image) is left out. Each item's text is ours, quoted by the Department; the Department's answer follows it. End of note.

Search audit (searches run by your users): all fields the export contains, including search ID, user, organization, total networks searched, time frame, license plate, reason, case number, filters, search time, and search type.

See attached invoice for a Good Faith Deposit if you still want this item.

Network audit (searches of your cameras run by users of other organizations): all fields the export contains, including the searching organization, total networks searched, reason, search time, and search type.

See attached invoice for a Good Faith Deposit if you still want this item.

Sharing configuration export as of the date the export is run, for each network the Troy Police Department operates: the organizations that share camera data with the Troy Police Department and the organizations the Troy Police Department shares its camera data with, together with the sharing-settings record showing whether statewide and nationwide sharing are enabled.

Available on the transparency portal: <https://transparency.flocksafety.com/troy-mi-pd->

Change logs: the hot-list event log (creation, update, and deletion of hot lists and their entries, with user and date), and any event log or audit trail the system keeps of changes to users, sharing settings, or retention, if the system provides one.

There is no public record that exists in the format requested that is presently in the possession of the public body. The FOIA request would require the city to create a new public record which the City is not required to do under MCL 15.233(5). Further, the FOIA request would require the city to create a "compilation, summary, or report of information" that the City is not required to do under MCL 15.233(4). The hot-list alert summary or alert export the system produces (alerts by hot list or topic and date), and any alert-disposition report the system produces. If individual alerts drawn from LEIN or NCIC lists are withheld, the summary the system produces is sufficient for those.

See attached invoice for a Good Faith Deposit if you still want this item.

User list export (authorized users and roles) as of the date the export is run.

Document attached.
