

Note added by Michigan Plate Readers. Message on request 26-2915 (system exports) on the City of Warren Police Department's NextRequest portal, posted October 20, 2026 at 8:41 am to the requester and staff, with the portal's timeline entry closing the request at 8:45 am, as Chance copied them from the request page (the portal needs a sign-in). Text as posted; the message quotes our request text, which carries no contact details; the portal's buttons and footer are left out. The released files are registered as records of their own. End of note.

Dear Sir/Madam,

Your records request (see insert below) has been fulfilled / completed.

"FOIA request under the Michigan Freedom of Information Act, MCL 15.231 et seq. Flock Safety / automated license plate reader (ALPR) program records: system exports.

I request copies of the following records held in the Warren Police Department's Flock Safety account. Each is data the system already stores; the Flock audit and reporting tools copy it to a CSV (or the format the system produces) with a standard export function, and that file is the copy I am requesting. For any item the system displays but does not export, a copy in whatever form the system provides is acceptable. Please provide each file by email or through your records portal, and your response by email (MCL 15.234(1)(c); MCL 15.235(10)). No paper copies or physical media are requested.

Time frame: items 1, 2 and 4, July 1, 2026 through the date the export is run; items 3, 5 and 6, as of the date the export is run. If the export tool limits each run to a fixed window (for example 30 days), please run consecutive exports so that the files together cover the period and send each file. It would help me to know the earliest date the tool will accept, so that I can request earlier periods separately.

1. Search audit (searches run by your users): all fields the export contains, including search ID, user, organization, total networks searched, time frame, license plate, reason, case number, filters, search time, and search type.

2. Network audit (searches of your cameras run by users of other organizations): all fields the export contains, including the searching organization, total networks searched, reason, search time, and search type.

3. Sharing configuration export as of the date the export is run, for each network the Warren Police Department operates: the organizations that share camera data with the Warren Police Department and the organizations the Warren Police Department shares its camera data with, together with the sharing-settings record showing whether statewide and nationwide sharing are enabled.

4. Change logs: the hot-list event log (creation, update, and deletion of hot lists and their entries, with user and date), and any event log or audit trail the system keeps of changes to users, sharing settings, or retention, if the system provides one.

5. The hot-list alert summary or alert export the system produces (alerts by hot list or topic and date), and any alert-disposition report the system produces. If individual alerts drawn from LEIN or NCIC lists are withheld, the summary the system produces is sufficient for those.

6. User list export (authorized users and roles) as of the date the export is run."

Please be advised that portions of the records have been redacted. A log describing the reason for each redaction follows each document that contains redactions. Also please note that no log was

created for the following two documents: org-search-audits_80d46639-ad1b-4bc9-9f66-e93948fcbd7e_2026-08-redacted.pdf (contains 352 redactions) and org-search-audits_80d46639-ad1b-4bc9-9f66-e93948fcbd7e_2026-09-redacted.pdf (contains 332 redactions). All redactions in these documents were redacted pursuant to MCL 15.243 Sec 13 (1) (b) (v) Disclose law enforcement investigative techniques or procedures

It is the opinion of this body that the public interest in disclosure does not outweigh the public interest in nondisclosure in this particular instance.

To review your records: click on the blue box "View Request #..." below. Log in to your request (you may either create an account or simply use your email and a password). Once you are viewing your Request, click on the "Documents" tab, then click on each record link located within this tab.

The public summary of the City's FOIA procedures and guidelines, including the appeal process, is available free of charge from www.cityofwarren.org.

Regards,

Warren Police Department Records
